Call today to arrange for a free no obligation quote or for any queries you may have

www.hi-techalarms.co.uk | 0113 2529917

We can change the main components of your wired intruder alarm (control panel, keypad and external bell box) to upgrade the system leaving the remaining items and wiring in place*

With this system we can also add in wireless detection – ideal for expanding an existing alarm or to add extra detection equipment to windows or patio doors.

Consisting of;

- 10 zone wired control panel
- 400 keypad
- Illuminating external bell box
- 2 fobs for set/unset at keypad and codes can also be used
- Wi-Fi-module allows alarm to be set/unset and receive alerts remotely via the control plus app on your smart phone**
- Fully installed
- 12 months warranty on new parts fitted
- Option to replace up to 4 detection devices - PIR detectors/door contacts additional £70+ vat***
- Option to upgrade keypad to metal or touch screen finishes
- Option to add in wireless detection

All for an
amazing
£400.00
inc VAT

*or can be quoted if not working

** for Wi-Fi module to work a high speed broadband connection is required not included

*** if fitted whilst already on site

Where existing equipment is replaced in like for like locations please note that the new equipment will differ in size and shape from existing.
